

# Vocabulary Cards

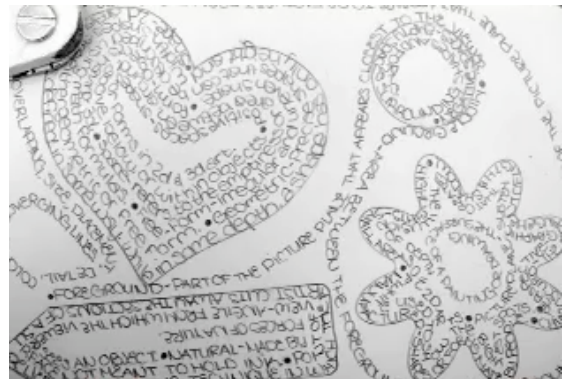

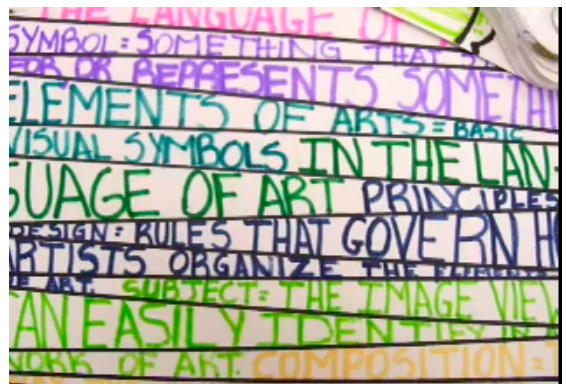

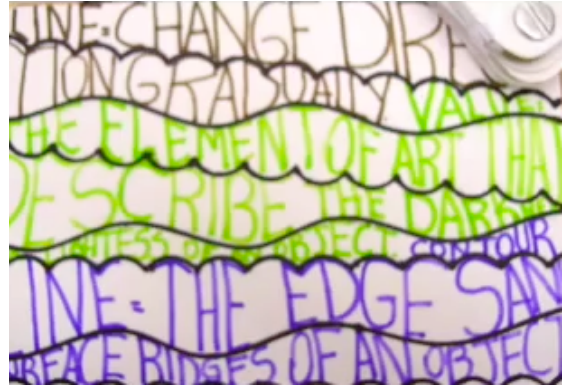

## Materials

4" x 6" index cards  
colored pencils or markers

## Procedure

Instead of writing vocabulary words on regular lined cards, instead, try to match the vocabulary with the Element of Art that you are studying.

**For example**, if you are studying about Line, random diagonal lines or curved lines on an index card and then write your "line" vocabulary words within the spaces that the lines make.

If you are studying Shape, have the vocabulary definitions written into shapes, etc.

This could be done for all of the Elements of Art and Principles of Design.
