

# Spray Paint Process

## Materials needed:

130# watercolor paper or heavyweight paper  
Spray Paint in various colors  
Scrap heavyweight paper  
Scissors or cutting tool

## Procedure:

1. Cover your work surface with newspaper or plastic.
2. Cut shapes from the scrap paper and place onto the paper. These scrap paper shapes will act as a mask when you are spraying the paint.
3. Shake the spray paint and spray over the shapes. Move the scrap shapes, add new ones – spray another color. Continue until the entire paper is covered with color and shapes.
4. Allow to dry **completely**.
5. If desired, use colored pencils, markers, paint/gel pens to enhance the paper.
