

Webbing Process

Materials needed:

130# watercolor paper or heavyweight paper
Fabric Dye in plastic squeeze bottles
Plastic gloves to protect your hands
Sponge, water container, water
Webbing Spray (found in arts & crafts stores)

Procedure:

1. Cover your work surface with newspaper or plastic.
2. Use the sponge and water to thoroughly wet the paper.
3. Squeeze the dyes onto the wet paper and use the sponge to make sure that the surface of the paper is covered with dye. Allow to dry.
4. Shake the webbing spray until it is mixed thoroughly. Spraying at an angle, cover the surface of the paper with webbing.
5. Allow to dry **completely**.
6. If desired, use colored pencils, markers, paint/gel pens to enhance the paper.
